

"I would definitely recommend this MA to anyone looking to further their understanding of child protection issues and relate this to practice. I am not sure there is anything else on offer which would have been better for achieving this. My knowledge and practice has been massively improved by undertaking this course".
Safeguarding Health Professional

Advanced Child Protection with the University of Kent

MA, PG Certificate, Diploma, Standalone modules: part-time, distance learning

A child-centred approach on these programmes offers professionals working with children, multi-agency practitioners, the opportunity to gain knowledge, skills and confidence plus a 360° perspective on the child protection system, integrating research, practice expertise and theory. We are proud to bring together inter-professional perspectives and focus on skills of direct work with both parents and children.

CPD accredited courses using award-winning simulations

The Centre's award-winning CPD-accredited simulations are available for professionals to keep up to date with current child protection risks and can also be used directly with young people in the classroom, groups or one to one:

'Maryam and Joe: Behind Closed Doors' addressing hate crime and extremism.

'Looking out for Lottie' on child sexual exploitation

Zak' looking at signs of radicalisation

'Rosie 2' assessing parental capacity and neglect in complex families

'myCourtroom: Rosie's family go to court' on court skills
