

Attachment Studies

Gain a specific qualification in the assessment of child and adult attachment, parenting and family functioning.

- ✓ Designed especially for social care practitioners.
- ✓ Our programmes draw on Patricia Crittenden's Dynamic Maturational Model (DMM) of attachment.
- ✓ Analyse a wide range of validated assessments and apply them to improve the well-being of families.

All our courses are taught by experts in the field:

- MSc Attachment Studies
 - Professional Development Short Courses in Child, Adult and Family Assessment
- Certificate in DMM Attachment based family assessment and intervention*
 - Tailored for disciplines in areas including: representing children in family courts, child protection, adoption, fostering and more.
 - Flexible training that can be provided in the workplace (minimum of ten students)

*Subject to validation
