What did our visitors think of the event?

Excellent day. Informative and the layout of the stalls/pitches allowed everyone to wander and ask questions freely. Every organisation contained at least one individual who was able to offer support and advice. Well-planned and relaxed atmosphere.

Karen Warner, Resettlement Officer

Very good seminars and stands, enjoyed learning more and getting information, found it very useful.

Megan Preece, Mental Health Support Worker

It was wonderful, very useful and educational. Something real for now and future newly qualified Social Workers in today's society. With the new government, Social Workers will be privatised, let's keep communicating and with a professional body. Keep going COMPASS, God bless!

Dion Blackwood, Senior Social Worker

I have been a qualified Social Worker for 4 years. I loved the seminars, the speakers were really outstanding and I feel that I have gained a lot of information and in-depth analysis of the current Social Work practice, which I would not have got from my local authority in-house training. The opportunity of networking and information sharing has also been very important for me and re-lit my enthusiasm for the profession.

Elizabeth Cirio, Social Worker

Well organised; good seminars. Very interesting regarding opportunities for Adult Social Work as things are in flux. Good to hear about GSCC and BASW and future role of social work. Also enjoyed listening to Ruth Cartwright regarding what's happening at policy level.

Parbinder Johal, Social Work Student

The event was organised well, it was very useful and helpful. I had the opportunity to meet employers and had good advice.

I found the seminars informative and gained up-to-date information on the SW Reform Board; BCC Children Social Care; developments in Leicester regarding working in Mosques and Madrassa and I plan to go to the seminar regarding trafficking. The range of exhibitors was OK, and I have done some useful networking.

Margaret Egrot, SW Consultant and Trainer

Good day generally! Can we have more please? Excellent staff/support crew! Back again next year – please send reminder! Thanks.

Levi Gabre, Equalities Trainer

Very good seminars and stands enjoyed learning more and getting information, found it very useful.

Megan Preece, Mental Health Support Worker

I found the day very useful and informative, the seminars were useful and the stands were relaxed and informal, each stand was approachable. I would have liked to go to more seminars however they overlapped and I expected a few more Councils to be present. I will return again however to the London event or Manchester due to the Councils present and where I will be working.

Justine Curtis, Student Social Worker

I found it useful and informative, well presented. Good value.

Pal Gudu, Estate Agent

Useful as I got to speak to someone face-to-face regarding applying for Universities they were familiar with. Would come again regarding updates.

Neena Bains, Student
