

Creative, caring and ready for a challenge? We'd like to hear from you.

This is a time of great opportunity for working and living in Leicester. The City has ambitious plans to transform and regenerate itself over the next 25 years, building on a strong foundation that has begun to have an impact on the face of Leicester, both culturally and economically.

Our team make a real difference to the lives of children, young people, their families and older people needing social care and support. We work with vulnerable members of the community and help those with mental health problems or learning disabilities, support older people and work with families in order to keep children safe, as well as provide support and advice to help keep families together.

As part of our ongoing programme we are currently recruiting for Social Workers at all levels. Whether you are still working towards your qualifications or are already qualified we would like to hear from you.

We are looking for individuals who can work in partnership, who think creatively and help individuals to find personal solutions. A commitment to tackling inequalities is essential.
